

Wireframes - UI Designs for Fabulari

Planning:

Wireframes that I need to create:

KEY: U (User/General), GA (Group Admin), SA (Super Admin)

- **User/General:**

- Opening Screen (ALL)
- Login Page (ALL)
 - Sign In Page
 - Sign Up Page
- Profile Page (ALL)
 - Email, Name, Username, Age, Theme
 - Deleting Account option (U, GA)
- Main Groups Page (U, GA)
 - List of Groups available to join + Ability to join them
 - List of Groups joined + Favourite Groups
 - Group Creation Page - to send request to SA
 - Underage rejection screen
 - Rejection modal when a request has been denied.
- Group Pages (U, GA)
 - Chatting areas
 - Threads
 - List of Members in Chat + Fancy Badge for the GA

- **Group Admin:**

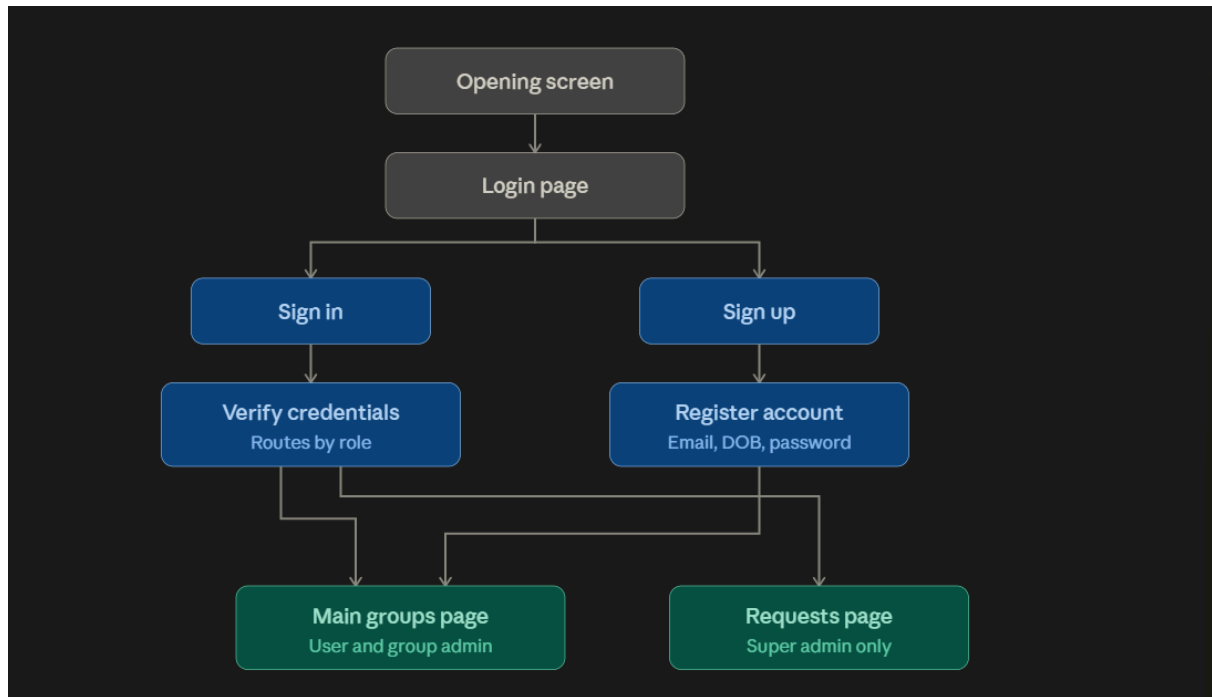

- Profile Page
- Group Editing Page - Managing the group's UI
- Requests Page - to see their requests to the Super Admin and from Users
 - Member Management - viewing the banned members
 - Ban request handling
 - Promoting a new GA

- **Super Admin:**

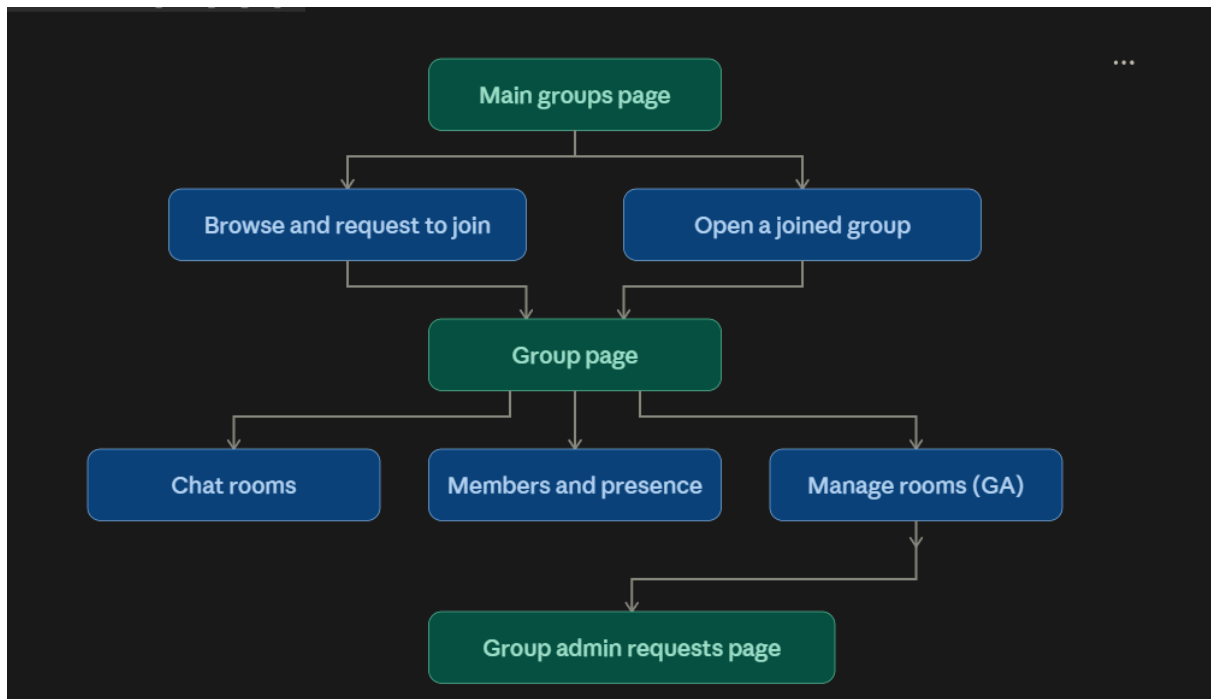

- Profile Page
- Requests Page - for approving requests.
- Audit Log Page

- Pop-ups (Modal situations and Toast Notifications)- notifications reporting other members

User Flow Diagrams:

NOTE: a brand-new sign-up only ever lands as a User — nobody registers directly as a Group Admin or Super Admin. Now here's what happens after a User or Group Admin lands on the main groups page:

Super Admin's side:
